

Pavel Parízek

Curriculum Vitae

Contact

Address: Department of Distributed and Dependable Systems,
Faculty of Mathematics and Physics, Charles University
Malostranske namesti 25, 118 00 Prague 1, Czech Republic
E-mail: parizek@d3s.mff.cuni.cz
WWW: <http://d3s.mff.cuni.cz/~parizek>

Employment

Assistant Professor **09/2012 –**
Dep. of Distributed and Dependable Systems, Faculty of Mathematics and Physics,
Charles University in Prague, Czech Republic

Post-doctoral Fellow **05/2010 – 08/2012**
David R. Cheriton School of Computer Science, Faculty of Mathematics,
University of Waterloo, Ontario, Canada

Assistant Professor **07/2009 – 04/2010**
Dep. of Software Engineering, Faculty of Mathematics and Physics,
Charles University in Prague, Czech Republic

Researcher **10/2008 – 06/2009**
Dep. of Software Engineering, Faculty of Mathematics and Physics,
Charles University in Prague, Czech Republic

Education

Ph.D. in Software Systems **2008**
Faculty of Mathematics and Physics, Charles University in Prague, Czech Republic

RNDr. (similar to Ph.D. candidate) **2007**
Faculty of Mathematics and Physics, Charles University in Prague, Czech Republic

Mgr. (MSc equivalent) in Computer Science **2005**
Faculty of Mathematics and Physics, Charles University in Prague, Czech Republic

Research Projects

Verification and Bug Hunting for Advanced Software

Funded by: Grant Agency of the Czech Republic

Duration: January 2017 – December 2019

My role: team member

Automatic Formal Analysis and Verification of Programs with Complex Unbounded Data and Control Structures

Funded by: Grant Agency of the Czech Republic

Duration: January 2014 – December 2016

My role: team member

Practical Program Verification Using Combination of Static and Dynamic Analysis

Funded by: Grant Agency of the Czech Republic

Duration: February 2013 – December 2015

My role: Principal Investigator

Quality Impact Prediction for Evolving Service-oriented Software (Q-ImPRESS)

Funded by: European Union under the ICT priority of the 7th Research Framework Programme

Duration: January 2008 – December 2010

My role: team member

<http://www.q-impress.eu>

Open Source Platform and Infrastructure for Run-time Integration of Services (OSIRIS)

Funded by: ITEA/EUREKA Programme

Duration: July 2005 – June 2008

My role: team member

<http://www.itea-osiris.org>

Component Reliability Extensions for the Fractal Component Model (CRE)

Funded by: France Telecom R&D

Duration: January 2005 – June 2006

My role: team member

http://d3s.mff.cuni.cz/projects/formal_methods/ft/

- [38] P. Parízek and F. Plášil. Specification and Generation of Environment for Model Checking of Software Components. Tech. Report No. 2005/5, Dep. of SW Engineering, Charles University, 2005

Theses

- [39] P. Parízek. Formal Verification of Components in Java. Ph.D. thesis, advisor: Frantisek Plasil, 2008
- [40] P. Parízek. Transactions in Peer-to-Peer Systems. Mgr. thesis, advisor: Petr Tůma, 2005

Selected Talks

1. Systematic Testing of Concurrent Programs Using Combination of Static and Dynamic Analysis. Imperial College London, 2014; ECOOP PC seminar, 2015
2. Practical Verification and Bug Finding with Java Pathfinder. Oxford University, 2012; Aarhus University, 2012

Software

Soothsharp: C# front-end to the Viper verification framework

<https://github.com/soothsilver/soothsharp>

PANDA: Predicate Abstraction in Dynamic Analysis

<https://github.com/d3sformal/panda>

JPF-static: Java Pathfinder extension for practical verification based on combination with static analysis

http://d3s.mff.cuni.cz/projects/formal_methods/jpf-static

J2BP: Tool for automated construction of predicate abstraction of Java classes
<http://plg.uwaterloo.ca/~pparizek/j2bp>

RTEmbed: Java Pathfinder extension for exhaustive testing of Java programs for real-time and embedded platforms (RTSJ and SCJ)
<http://babelfish.arc.nasa.gov/trac/jpf/wiki/projects/rtembed>

COMBAT: Component Behavior Analysis Toolset
http://d3s.mff.cuni.cz/projects/formal_methods/combat

Teaching Experience

Courses taught at Charles University:

- Program Analysis and Code Verification: 2008-2009, 2013-2017
- Formal Foundations of Software Engineering: 2015-2016
- Advanced Tools for Software Development and Monitoring: 2014-2016
- Software Development Tools: 2013-2016
- NetBeans and Eclipse Platforms: 2013-2014
- Recommended Programming Practices – labs: 2010, 2013
- Embedded and Real-Time Systems – labs: 2010
- Java – labs: 2009
- Software Development and Monitoring Tools: 2008, 2012 (labs)
- Internet – labs: 2007-2008

Students

Current Students

1. Petr Hudeček, Mgr (MSc equivalent), started in October 2016
2. Vlastimil Dort, PhD, started in October 2016
3. István Satmári, Mgr, started in June 2016
4. Jakub Háva, Mgr, started in March 2016
5. Jakub Daniel, PhD, started in October 2013

Past Students

1. Filip Kliber, Bc, May 2016 – September 2016
Design and Implementation of a Language for Code-golf Challenge
2. Přemysl Vysoký, Mgr (MSc equivalent), April 2016 – September 2016
Grammar to JetBrains MPS Convertor
3. Vlastimil Dort, Mgr, February 2015 – September 2016
String Analysis for Code Contracts
4. Jan Škvařil, Mgr, September 2014 – September 2016
Web System for Crowdfunding Based on Selling Items with Custom Imprint
5. Tomáš Šafařík, Mgr, June 2015 – June 2016
Java Bytecode Preprocessor for Program Verification Tools

6. Jonáš Klimeš, Mgr, May 2014 – June 2016
Domain-Specific Language for Learning Programming
7. Pavel Jančík, Mgr, April 2009 – September 2010
Checking Compliance of Java Implementation with TBP Specification
8. Rudolf Tomori, Bc, October 2008 – June 2009
Automatic Detection of Web Application Vulnerabilities
9. Nodir Yuldashev, Mgr, December 2006 – May 2009
Using Java PathFinder for Construction of Abstractions of Java Programs
10. Zdeněk Bouška, Bc, October 2007 – January 2009
Traffic Monitoring in TCP/IP Networks
11. David Brodský, Bc, November 2006 – August 2007
Distributed Hash Table for BitTorrent Client

Professional Service

Program Committees

1. European Conference on Object-Oriented Programming (ECOOP): 2015
2. Symposium on Applied Computing, special track on Object Oriented Programming Languages and Systems (OOPS track, SAC): 2015, 2016
3. Java Pathfinder Workshop: 2011-2013
4. International Workshop on Java Technologies for Real-time and Embedded Systems (JTRES): 2010

Journal Referee

1. Science of Computer Programming
2. Software Testing, Verification and Reliability (STVR)
3. ACM Transactions on Software Engineering and Methodology
4. Concurrency and Computation: Practice and Experience
5. IET Software

External Reviewer

1. Formal Methods in Computer-Aided Design (FMCAD): 2016
2. European Conference on Object-Oriented Programming (ECOOP): 2008, 2016
3. International Symposium on Static Analysis (SAS): 2011
4. International Symposium on Component-Based Software Engineering (CBSE): 2010
5. World Congress on Formal Methods (FM): 2009

Other

1. Member of the subject-area board for computer science (informatics) of the Charles University Grant Agency (GAUK): from September 2016
2. Local organizer for conferences and workshops: ECOOP 2015
3. Mentor in the Google Summer of Code (GSoC) program for the Java Pathfinder team: 2010-2013, 2016
