

Assignment 1

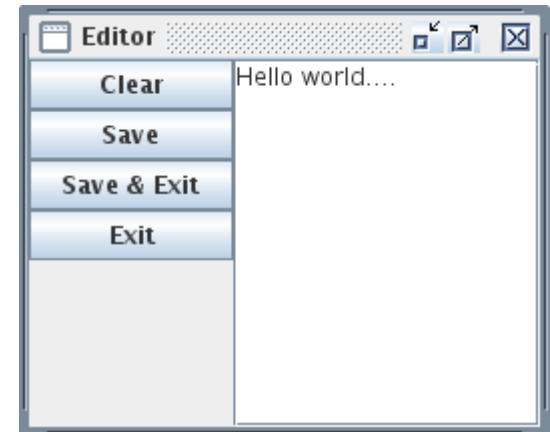

- Create the HelloWorld program using Swing
 - the JLabel in the JFrame
- Add a button to the previous program, which terminates the program
- Add a menu with the item to the previous program, which terminates the program

Assignment 2

- Creates a simple text editor
 - use JTextArea and JScrollPane
 - name of the file is set as a command-line parameter
 - if the file exists, it is loaded
 - a button below the edit area – saves the document
 - menu
 - saving
 - ending

Assignment 3

- Extend the editor by a “panel with tools”
 - as in the figure
 - recommendation
 - use JPanel and GridBagLayout
