Programming Language Design

Learn how to build better languages & libraries!
But wait, what does "better" even mean?

Safety

Do types in TypeScript actually prevent bugs?

Use logic to find out!

Usability

Is randomly generated language better than Perl?

Run a user study to see!

Convenience

Why do people keep "programming" in Excel?

Study design trade-offs!

Simplicity

Was programming in the 1980s easier than today?

Learn from the past!

Come to the opening lecture!

Tuesday, October 1 at 12:20, room S6
